

A DELICIOUS HOTEL & RESTAURANT... DO YOU DARE TO DISCOVER IT TOO?

Located in Monroyo, or Mont-Roig de Tastavins if you prefer is situated at some 857 metres above sea level in the heart of the Matarraña region, Teruel, it is a very singular hotel located in one of the most beautiful and undiscovered regions of Spain; the Matarraña, is a province of Aragón although situated in Teruel. It is on the border with Castellón and Tarragona. Its charm lies instead in the harmony of its natural landscapes, pine forests, almond and olive groves.

Consolación opened its doors in 2009. it is a very singular hotel that perfectly combines tradition, modernity, comfort and nature. Built next to a hermitage of the S.XVI, offers a good fun quiet if you like, inspired by the architecture of Craig Ellwood; a mix of the Germanic rationalism of Mies Van der Rohe and the youthful hippy cool of Southern California.

The hotel has received numerous awards for design and architecture and is recommended by major national and international guide tourism. It is ideal for those who are passionate about nature. Hiking, bike routes, canyoning, kayaking and the starting point for lovers of Medieval History, Prehistory, El Camino de Santiago, the Art ...

You visit somewhere and you fall in love. And you never want to leave ... a unique space ready to be the scene of the highlights. Do you dare to discover it too?

ROOMS

Consolación has only twelve rooms. Two are on the first floor of the house belonging to the Ermita, a building of baroque origins like the church itself. Ten of them are “kubes” not actually bedrooms but individual kubes, fronted with natural pine and placed on a cliff edge. The access to the kubes is via a natural garden carpeted with rosemary and thyme.

Room Categories:

- ✓ Kubes: (36 m2). Each of simply lined minimalism. The bathtub dug in the floor of black slate and it faces a window wall which offers the most spectacular views. Kube is a roof to nature to enjoy the most amazing sunsets. The Kubes 9 and 10 are different because they are attached. They are perfect for a group or family but they can also be completely independent, just linked by a wall. Furthermore Kube 10 is the only without chimney.
- ✓ Nordic room: (53m2). Soft tones and Original Danish furniture which has been brought especially from Berlin. Open fire and three windows from which to sit at and contemplate the mountains. Lamps from Alvar Aalto, a desk and double shower bathroom complete room facilities.
- ✓ Baroque room: 46m2. of explosive colors and fabrics which take their inspiration from the XIX century. Lounge area with open fire. Edwardian style wardrobe and two windows with patio views. Desk. Double shower bathroom.

- ✓ Large double bed (180 cm x 200 cm)

RESTAURACIÓN

Separated from the patio area by three large glass windows, the restaurant is probably our favourite space. It is 44m² and seats 30 people. Wooden beams with lamps that fall and twist like Ivy. The natural theme is continued with the Worden tables and is broken with a spectacular iron pew. Music plays softly in the background sometimes; while at other times all that can be heard is the sound of relaxed conversation.

The kitchen is the temple belonging to our chefs, but also the only way to access the restaurant from indoors (how we like to watch fresh food being prepared before our eyes!). There is also a brunch table which is opened on special days and a fridge which is open to clients even when the chefs are resting.

THE ERMITA

The “Ermita” is strictly not a space, but the source of our inspiration and the focal point of our hotel. We ask our guests to contemplate it for a few minutes during their stay. The Ermita was constructed in the 18th Century and was a reproduction of the original Ermita built in the 14th Century. It was extended in 1773 and again in 1903.
